# Polyhedron Laboratories

Independent Analytical Testing

**Accuracy. Integrity. Confidence.**

# Certificate of Analysis

| | |
|---|---|
| **COA Number** | PL-260802-O1H7 |
| **Client** | Perpetual peptides |
| **Search Code** | PL-260802-O1H7 |
| **Received Date** | 07/20/2026 |
| **Reported Date** | 07/24/2026 |

## Sample Information

| | |
|---|---|
| **Product** | Wolverine stack 20 mg |
| **Net Content** | 21,2 mg |
| **Identity** | Bpc 157 10mg & TB-500 10mg |

## Batch Information

| | |
|---|---|
| **Lot** | PER-26B02-01 |
| **Result** | Completed |
| **Appearance** | Lyophilized peptide vial |

**Analytical Method: Summary certificate referencing completed analytical reports for the submitted sample.**

| Package Summary | Result |
|---|---|
| **HPLC / Heavy Metals / Endotoxin** | **Completed** |

## Results

| | |
|---|---|
| **HPLC blend purity** | 99.35% |
| **Heavy metals** | Not detected |
| **Endotoxin** | 0.04 EU/mL - Pass |
| **Evidence** | Individual study PDFs attached / referenced |

**Comments:** Full package summary for the submitted sample. Individual study reports should be retained as supporting evidence. Endotoxin interpretation depends on method, acceptance limit and sample preparation.

## HPLC Peak Assignment

| Compound | Peak / RT | Reported amount |
|---|---|---|
| **BPC-157** | RT / peak assignment pending | 10.46 mg |
| **TB-500 (Tbeta4)** | RT / peak assignment pending | 10.74 mg |
| | | |

## Endotoxin Context

| | |
|---|---|
| **Method** | LAL endotoxin test |
| **Acceptance limit** | 0.08 EU/mL - Pass |
| **Sample prep** | Reconstitution concentration |
