Polyhedron Laboratories

Independent Analytical Testing

Accuracy. Integrity. Confidence.

Certificate of Analysis

COA Number	PL-260807-XY08
Client	Perpetual peptides
Search Code	PL-260807-XY08
Received Date	08/04/2026
Reported Date	08/07/2026

Sample Information

Product	CJC 1295+ ipamorelin 10mg
Net Content	11,2 mg
Identity	CJC-1295 No Dac + Ipamorelin

Batch Information

Lot	PER-26B02-01
Result	Completed
Appearance	Lyophilized peptide vial

Analytical Method: Summary certificate referencing completed analytical reports for the submitted sample.

Package Summary	Result
HPLC / Heavy Metals / Endotoxin	**Completed**

Results

HPLC blend purity	99.42%
Heavy metals	Not detected
Endotoxin	0.05 EU/mL - Pass
Evidence	Individual study PDFs attached / referenced

Comments: Full package summary for the submitted sample. Individual study reports should be retained as supporting evidence. Endotoxin interpretation depends on method, acceptance limit and sample preparation.

HPLC Peak Assignment

Compound	Peak / RT	Reported amount
CJC-1295 No Dac	6.842 min — CJC-1295	5.5 mg
IPAMORELIN	11.276 min — Ipamorelin	5.7 mg

Endotoxin Context

Method	LAL endotoxin test
Acceptance limit	0.08 EU/mL - Pass
Sample prep	Reconstitution concentration
